During my studies at the Northern School of Art I have been in many exhibitions and also help group ones with peers on my course. My most notable exhibition I have been part of is The British Museum's Drawing Attention: Emerging Artists which was a traveling exhibition with its last stop being in Hartlepool Art Gallery on Church Square. My work was exhibited alongside some of the most well-known artists of recent centuries such as Andy Warhol and Sin Wai Kin.

I also have been a curator for shows and exhibitions in the past such as my graduate show PRAXIS in which we had to showcase our work we had done for our Final Major Project in our final year of our fine art degree at the Northern School of Art. In previous years we have also held other exhibitions and taken over spaces which I have also been a curator for and head chair so I am someone who can handle pressure well and pull off well-planned big scale events.
